

# EMERGING CAREERS IN ELECTRONIC HEALTH RECORDS

## TRAINING TO BEGIN AT THE SAMUEL FIELD Y

Are you looking for a new career in an emerging and growing industry? Start building your new career by training in Electronic Health Records Systems.

The Healthcare industry is under a Federal mandate to be completely paperless by 2014.

If you have verifiable and recent experience in one of the above disciplines, there are entry and middle level job opportunities for you.

**Join your expertise – Information Technology, Billing and Coding, Clinical Medical skills, Sales and Marketing or Corporate training – to the body of knowledge and know-how that comprises the Samuel Field Y's Electronic Health Records Training, a 300 hour course with curriculum accredited by the National Healthcare Association at the Samuel Field Y in Little Neck. There is a \$300 charge for this program.**

For more information and next steps, send an email with resume and EHR in the subject line to [Connect-to-Care@sfy.org](mailto:Connect-to-Care@sfy.org)
